

FOLGEFONNSENTERET

Folgefonna Centre is an interactive experience center located at the quay in Rosendal. We share research from the University of Bergen and the Institute of Marine Research. Learn about the water cycle, Folgefonna National Park, climate and climate change, and the sustainable use of natural resources.

The Folgefonna Centre serves as a visitor center for Folgefonna National Park and Geopark Sunnhordland. The same building also houses Kvinnherad Tourist Information and the Skaaluren Collection.

INFORMATION

We require advance booking for groups. Invoices can be sent as EHF after the visit. Cancellations must be made at least 24 hours prior to the visit.
